## A Fine Line Between Justice and Political Vengeance

While "The Real Story of January 6 Part 1" tells the real story of what happened that day, Part 2 reveals the untold stories of the Jan. 6 defendants whose liberties were infringed upon and the truth of how they've been treated with injustice in the prosecution process.

With shocking evidence of Jan. 6 defendants and exclusive Capitol Hill security footage, Epoch Times Senior Investigative Reporter Joseph Hanneman exposes the two-tier system of justice and how January 6 has changed American life. After 3 years of investigations, the new findings challenge established narratives and give voices to silenced political prisoners.

## ABOUT CROSSROADS

It's easy to get lost in the daily news cycle, with its constant barrage of headlines and updates. What's often missing, however, is a broader and deeper analysis of what's behind the headlines. "Crossroads," hosted by Epoch Times senior investigative reporter Joshua Philipp, is an opinion and analysis show that presents deeper insights into the news cycle, culture, and society. It connects current events with history, ties various news stories together with analysis and opinion, and goes beyond the headlines to present a clearer picture of what's happening in the world.
